# Application of Artificial Intelligence in the Internet of Things

### Message from the Guest Editors

The convergence of Artificial Intelligence (AI) and the Internet of Things (IoT) is transforming different companies, cities, and daily life around the world, creating a new paradigm often referred to as the Artificial Intelligence of Things (AIoT). This Special Issue aims to explore the powerful synergies between AI and IoT, highlighting how AI enhances IoT systems' intelligence, autonomy, and efficiency in a variety of applications, including smart cities, healthcare, manufacturing, agriculture, and more.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
