

Special Issue

Advanced Integrated Circuit Technology and Application

Message from the Guest Editor

This Special Issue offers scientists, engineers and researchers an excellent opportunity to present the latest research results, ideas, developments and applications. We are inviting contributions to a Special Issue of papers related to integrated circuit design, including theory, methods and applications in computing, consumers and control. Potential topics include but are not limited to:

- Low power analog circuits;
- Power circuits;
- Energy harvesting circuits;
- Automotive integrated circuits;
- Biomedical integrated circuits;
- Wireless communication circuits;
- Sensor applications;
- AIoT networks;
- Artificial intelligence circuits;
- Embedded Systems

Guest Editor

Dr. Yitsen Ku

Electrical and Computer Engineering Department, California State University, Fullerton, CA 92831, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
