Special Issue

Exposure Pathways and Health Implications of Environmental Chemicals, 2nd Edition

Message from the Guest Editor

This Special Issue is a continuation of our previous Special Issue, "Exposure Pathways and Health Implications of Environmental Chemicals". The scope of this Special Issue spans a wide array of topics, ranging from innovative methodologies for assessing environmental chemical exposure to the latest advancements in deciphering the intricate mechanisms underlying the resultant health effects. We seek contributions that explore the exposure pathways of a myriad of environmental chemicals, including, but not limited to, pollutants, pesticides, metals, and emerging contaminants, as well as their potential impacts on human health. Emphasizing a multidisciplinary approach, we encourage submissions that employ cutting-edge techniques in analytical chemistry, toxicology, epidemiology, and environmental sciences to elucidate the dynamic relationship between exposure to environmental chemicals and the subsequent health outcomes. Our goal is to foster a comprehensive dialogue that transcends traditional disciplinary boundaries, providing a holistic understanding of the challenges posed by environmental chemicals on human wellbeing.....

Guest Editor

Dr. Ronald A. Glabonjat

- 1. Mass Spectrometry Centre, Faculty of Chemistry, University of Vienna, 1090 Wien, Austria
- 2. Department of Analytical Chemistry, Faculty of Chemistry, University of Vienna, 1090 Wien, Austria

Deadline for manuscript submissions

30 April 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
