

Special Issue

Recent Advances and Application of Virtual Reality

Message from the Guest Editors

The rapid evolution of virtual reality (VR) has sparked a wave of innovation, with ground-breaking applications in fields as diverse as entertainment, healthcare, education and industry. This Special Issue seeks to capture the current state of the art and future directions of VR research and development. We invite submissions that delve into the latest advancements in VR hardware, software and content creation, as well as innovative applications that harness the power of VR to address real-world challenges and opportunities. We also encourage contributions that explore the potential of VR to enhance human capabilities, foster creativity and drive social impact. We are also interested in studies that investigate the cognitive and psychological effects of VR, including how immersive environments influence perception, learning and behavior. Furthermore, contributions that assess the ethical implications of VR, such as privacy concerns, accessibility and the long-term societal impact, are highly valued.

Guest Editors

Prof. Dr. Chrysostomos Stylios
Dr. Athanasios Christopoulos
Dr. Stylianos Mystakidis

Deadline for manuscript submissions

20 September 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
