Fifth Anniversary of 'Food Science and Technology' Section—Recent Advances in Food

Message from the Guest Editors

This year marks the fifth year since the inception of the “Food Science and Technology” Section. To celebrate this achievement, for this Special Issue, we seek high-quality submissions that highlight emerging and innovative technologies and applications that address recent advances and breakthroughs in the fields of food quality and safety, food components and nutrition, (bio)chemical characterization, etc. Keywords:

- food safety
- food security
- food technology
- lifestyle-related diseases
- healthy diet
- proteins
- bioactive peptides
- functional properties
- proteolysis
- chemical modifications enzymatic modifications
- allergy
- bioinformatics
- cheminformatics
- chemical information

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
