

Special Issue

Novel Thermal and Non-thermal Technologies towards Sustainability and Microbiological Food Safety and Quality

Message from the Guest Editors

Introduction of Supporting Discounts

We are pleased to announce a new initiative at Applied Sciences - MDPI aimed at facilitating the publication process for authors who may face financial challenges.

Authors encountering financial difficulties are encouraged to apply for a discount directly through our editorial office. Each request will undergo a thorough review and approval process by the Publisher, ensuring transparency and fairness throughout.

This initiative underscores our commitment to fostering inclusivity and accessibility in academic publishing, and we believe it will enable researchers from diverse backgrounds to share their findings and contribute to the advancement of knowledge.

We deeply appreciate your support as we work towards fostering a fair scholarly publishing landscape. This Special Issue focuses on the impact of both thermal and non-thermal technologies on the safety, quality and sustainability of food products. Please email Mr. Jerren Liu at jerren.liu@mdpi.com for more information and his assistance.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
