## Feature Review Paper in "Applied Microbiology" Section

### Message from the Guest Editor

This Special Issue aims to collect high-quality papers from the field of applied microbiology. We encourage researchers from this field to contribute papers to this Special Issue. We expect these papers to be widely read and highly influential within the field. We also plan for all papers included in this Special Issue to be published in the form of a print edition book and widely promoted within the scientific community. This Special Issue calls for original articles and reviews on topics including, but not limited to:

- Algae
- Bacteria
- Archaea, bacteria
- Fungi
- Microbes
- Microorganisms
- Prions
- Protozoa
- Viruses

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
