

Special Issue

Cosmetics Ingredients Research—3rd Edition

Message from the Guest Editor

We welcome your submissions for the new edition of our Special Issue. This Special Issue will continue gathering scientific papers on cosmetology in one place, specifically a place whose open access nature guarantees their exposure. The varied research possibilities include chemical, biotechnological, and dermatological approaches, which we hope will provide an interesting source of knowledge for those who want to stay up to date with current cosmetology. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- New substances in cosmetology;
- New approaches in cosmetics evaluation;
- Safety of cosmetic ingredients;
- Clinical trials of cosmetics.

We look forward to receiving your contributions.

Keywords:

- cosmetics ingredients
- skin
- permeation

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
