

Special Issue

10th Anniversary of *Applied Sciences*: Invited Papers in Nanotechnology and Applied Nanosciences Section

Message from the Guest Editors

The Section "Nanotechnology and Applied Nanosciences" of *Applied Sciences* covers an important domain of research and development. At present, this field has reached such a mature level that real-life applications of nanosciences have become a reality. Many domains of activities are concerned, ranging from health sciences to the oil industry, including cosmetics, agriculture, aeronautics, communications, energy, etc. This Special Issue intends to gather moderate-sized review papers featuring important and recent developments or achievements of nanosciences with a special emphasis on real or potential applications. The authors are well-known experts in their domain who are invited to submit their contribution at any moment from now to the end of October 2020. The papers can cover either experimental or theoretical aspects or both. Synthesis, fabrication, manipulation, characterization, etc. of nanostructures, properties of materials in a broad sense containing nanostructures, design of nano-devices, etc. are among the main topics.

Guest Editors

Prof. Dr. Philippe Lambin

Department of Physics, University of Namur, Rue de Bruxelles 61, B-5000 Namur, Belgium

Dr. Raul Arenal

Instituto de Nanociencia de Aragon (INA), Universidad de Zaragoza, Calle Mariano Esquillor, 50018 Zaragoza, Spain

Deadline for manuscript submissions

closed (30 June 2021)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
