

Special Issue

Application and Development of Antennas and Sensors in Biomedical Applications

Message from the Guest Editors

This Special Issue aims to underscore the latest advancements in the development and application of antennas and sensors in the biomedical field. Subjects that will be addressed span over a wide range of their medical applications, such as imaging, therapeutic interventions, and health monitoring, leveraging the interaction of electromagnetic waves with biological tissues. Contributions that highlight experimental research, clinical trials, and computational modeling studies are highly encouraged.

Guest Editors

Dr. Iman Farhat

Department of Physics, University of Malta, MSD 2080 Msida, Malta

Dr. Lourdes Farrugia

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
