

## Special Issue

# Selected Papers from CCF 39th China Computer Application Conference (CCF NCCA 2024)

### Message from the Guest Editor

This Special Issue comprises selected papers presented at the 39th China Computer Application Conference (CCF NCCA 2024), organized by the China Computer Federation (CCF). The conference provided a platform for researchers, practitioners, and industry experts to exchange insights and innovations in the field of computer applications. The selected papers cover a wide range of topics, including artificial intelligence, data mining, computer vision, cybersecurity, and human-computer interactions. These contributions reflect the latest advancements and challenges in computer application research and highlight the diverse perspectives shaping the future of technology.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
