

Special Issue

Security and Privacy of Big Data: Issues, Challenges, and Future Perspectives

Message from the Guest Editor

This Special Issue, which strives to encourage high-quality submissions from the community, will focus on the preservation of data security and privacy in the context of Big Data processing as one of its areas of focus. We encourage contributions from a wide array of industries and types of data, such as business, finance, health, and mobility, because the issues and solutions around privacy protection are complicated and always changing (e.g., IoT, blockchain, social media, and networks).

Keywords: big data privacy and ethics; differential privacy; artificial intelligence on cybersecurity; federated analytics; privacy-preserving databases; privacy-preserving analytics; secure outsourcing; trustworthy machine learning; zero-trust architecture for data security; intrusion detection system;

Guest Editor

Dr. Theyazn H.H. Aldhyani

Applied College in Abqaiq, King Faisal University, Al-Ahsa 31982, Saudi Arabia

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
