

Special Issue

Design and Control of Inertial Navigation System

Message from the Guest Editors

Inertial navigation systems have been widely used in many fields, such as the military, industry, and in daily lives. This Special Issue will publish high-quality original research papers on design, dynamics, modeling, control, navigation, electronics, and information fusion related to the inertial navigation system.

Guest Editors

Dr. Xiangbo Xu

School of Technology, Beijing Forestry University, Beijing 100083, China

Dr. Kai Shen

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
