ICEBA2024: Engineering, Physics, MEMS-Biosensors and Applications

Message from the Guest Editors

We are pleased to announce the Special Issue for the 5th International Conference on Engineering, Physics, MEMS-Biosensors, and Applications (ICEBA2024), which will be held in Ho Chi Minh City and Vinh Long Province, Vietnam. This event is organized by the University of Science (VNUHCM, Vietnam), Tohoku University (Japan), and Mien Tay Construction University (Vinh Long Province, Vietnam). We warmly invite you to contribute to Special Issues in the following subject areas:

- Engineering, Engineering Physics, and Electrical & Electronic Engineering;
- Medical Physics and Nuclear Engineering;
- MEMS, Sensors and semiconducting devices, Biomedical Engineering, Digital Microfluidics and their applications;
- Microelectronics, IC design, low consumption devices, Renewable Energy;
- Computing Science, Simulations, and Modeling;
- Embedded systems, Internet of Things, Machine Learning, Artificial Intelligence, etc.;
- Civil and Geology Engineering;
- Constructions, Machines, and Mechanical Engineering

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
