Advances in Physical Activity for Sport Performance

Message from the Guest Editors

An important requirement of training is individualised performance. Coaches and trainers must consider the unique abilities, learning characteristics, and needs of athletes. Modern technology helps analyse training loads in detail for designing appropriate programmes. The development of skills and the body's training response vary by age and past injuries. Promoting athletes' development and integrating physical training into technical and tactical aspects are crucial. Athletes should evaluate physiological responses in training, developing patterns transferable to competition. This methodological approach is key to enhancing performance and maintaining health in all sports.

Keywords:

- Individualised training
- Modern technology
- Analyse training loads
- Maturational development
- Behavioural patterns
- Transferred to competition

Guest Editors

Prof. Dr. Ferenc Ihasz

Exercise Physiology Laboratory, Eötvös Loránd University, Budapest, Hungary

Prof. Dr. Robert Podstawski

Department of Physiotherapy, University of Warmia and Mazury in Olsztyn, Olsztyn, Poland

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
