Biotechnology Applied to Dentistry

Message from the Guest Editors

We invite you to contribute to this Special Issue of *Applied Sciences* entitled "Biotechnology Applied to Dentistry", which aims to present the most up-to-date knowledge on new technologies in the field. In the last decade, dentistry has seen important progress in terms of the materials and methods used, with a notable improvement in clinical applications. This Special Issue focuses on the most recent and significant innovations in the main branches of dentistry, such as restorative dentistry, prosthetics, implantology, pediatric dentistry, and orthodontics. Authors are invited to submit their research on these topics in the form of original research papers, reviews, and perspective articles.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
