

## Special Issue

# Air Quality in the Urban Space Planning and Management

### Message from the Guest Editors

The Special Issue aims to provide a forum to discuss the current integration of environmental research on air quality in the planning and design of urban spatial structures. Articles reflecting innovative conceptual and empirical approaches are welcome. The scope of this Special Issue includes (but is not limited to) the following:

- Evolution of air quality research in urban space;
- Shaping urban space using environmental research on air quality;
- Air quality and sustainable urban transport;
- Air quality and the location of residential areas;
- Procedures for integrated and specialized urban planning, taking into account research on air quality for the current legal situation in different countries and in the Smart City.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
