Phytotherapy in Veterinary Medicine

Message from the Guest Editors

Phytotherapy is the usage of plant-based products as medications to cure or to prevent disease. Since ancient times, herbal extracts were used not only to alleviate human disease, but also for curing animals. Nowadays, a high number of studies used animal models to prove the efficiency of various plant compounds; however, the effective use of phytotherapy in veterinary medicine is still undervalued. Why veterinary practitioners are less interested in phytotherapy remains an open question, but we appreciate that there is a significant potential for phytotherapy in both pet animal medicine and organic/bio farming animal breeding. This Special Issue aims to promote phytotherapeutic remedies in veterinary medicine; therefore, we welcome original studies and reviews focusing for phytotherapy in various fields of veterinary medicine, veterinary applied microbiology, plant compounds toxicology, plant-based pharmacology, improvement feed strategies in veterinary medicine, or other related aspects.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
