

Special Issue

Advances in Bridge Design and Construction: Sustainable Innovations and Emerging Technologies

Message from the Guest Editors

This Special Issue invites researchers and practising engineers to submit original articles addressing advances and future perspectives in the design, rehabilitation, and construction of innovative sustainable bridges. Submissions may include case studies as well as reviews of novel practices and methodologies.

Keywords

- bridge design
- construction
- rehabilitation
- sustainability
- innovative materials
- digital technologies
- artificial intelligence
- climate change
- circular economy
- life-cycle cost

Guest Editors

Prof. Dr. Khaled Sennah

Civil Engineering Department, Faculty of Engineering and Architectural Science, Toronto Metropolitan University, Toronto, ON, Canada

Prof. Dr. Munzer Hassan

Department of Construction Engineering, École de Technologie Supérieure, University of Quebec, Quebec City, QC, Canada

Deadline for manuscript submissions

2 June 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
