

Special Issue

Applications of Automated Management System

Message from the Guest Editors

Today, organizations, as well as diverse systems, are facing unprecedented challenges like globalization that dictates around-the-clock work, contingency, real-time and critical decision-making, etc. These challenges apply to many fields, including industry, commerce, infrastructures, information systems, finance, medicine, computer networks, and governance. Considering the amount of data, the complexity of the problems, and the required response time, manual solutions cannot effectively address these challenges. Therefore, computer-based applications for automated management systems are required. The availability of significant AI power has boosted these solutions; thus, for this Special Issue, we encourage submissions related to AI, however this is not mandatory, and other technology bases like RFID are suitable.

Guest Editors

Dr. Ron Hirschprung
Prof. Dr. Oded Maimon
Dr. Sigal Kordova

Deadline for manuscript submissions

closed (30 August 2025)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
