

## Special Issue

# Soundscapes in Architecture and Urban Planning

### Message from the Guest Editors

The Editor of this Special Issue seeks original papers that integrate soundscapes into architectural design and urban planning. Contributions are welcome on topics exploring the physical dimensions of sounds, the auditory experiences of living beings, and the materiality of space, reflecting innovative approaches to enhancing the built environment and our natural spaces.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
