

## Special Issue

# 5G Vehicle-to-Everything (V2X): Latest Advances and Prospects

### Message from the Guest Editors

This Special Issue aims at publishing a collection of research contributions illustrating the recent achievements in all aspects of the development, study and understanding of Vehicle-to-Everything (V2X). We hope to establish a collection of papers that will be of interest to scholars in the field. Contributions in the form of full papers, reviews, and communications about the related topics are very welcome.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
