

Special Issue

Advances in Land, Rail and Maritime Transport and in City Logistics

Message from the Guest Editor

This Special Issue focuses on recent advances and innovative approaches in land, rail, and maritime transport systems, as well as the evolving field of city logistics. This issue aims to highlight interdisciplinary research and practical case studies that address the challenges and opportunities across different transport modes and urban freight distribution. We welcome original research and review articles that contribute to improving operational performance, reducing environmental impact, and enhancing the resilience of transport and logistics networks.

Research areas may include (but are not limited to) the following:

- land transport of freight and passengers
- rail transport of freight and passengers
- maritime transport of freight and passengers
- intermodality and combined transport
- city logistics digitalization in freight transport and logistics
- intelligent transportation systems
- simulation and optimization algorithms of transport systems

Guest Editor

Dr. Alessandro Farina

Department of Civil and Industrial Engineering, University of Pisa, 56126 Pisa, Italy

Deadline for manuscript submissions

20 August 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
