

Special Issue

Advances in Land and Sediment Heavy Metal Remediation and Applications

Message from the Guest Editors

Advances in land & sediment heavy metal remediation and applications is an important issue, both for soil and groundwater environments. This poses new challenges in the advancement of physico-chemical and biological technologies for heavy metal monitoring, positioning as well as treatment. Therefore, this Special Issue is intended for the presentation of new ideas and experimental results in the field of advances in land & sediment heavy metal remediation and application from field studies, and theory to its practical use. Areas relevant to advances in land & sediment heavy metal remediation and applications include, but are not limited to, physico-chemical and biological processes, novel remediation technologies, large-scale field applications, high-precision positioning, modeling, fate and behavior of heavy metals in land & sediment.

Guest Editors

Dr. Xu Zhang

School of Architecture and Urban Planning, Shandong Jianzhu University, Jinan 250101, China

Prof. Dr. Zhaojie Cui

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
