

Special Issue

Sustainable and Automated Design Strategies for Advanced Bridge Engineering

Message from the Guest Editors

The issue aligns with the journal's scope by addressing the intersection of structural engineering, sustainability, and digital technologies. We welcome contributions that explore both theoretical and applied aspects, with a focus on improving the lifecycle performance, durability, and environmental footprint of bridge infrastructure.

Guest Editors

Dr. David Martínez-Muñoz

Dr. José Antonio García

Dr. Andrés Ruiz-Vélez

Deadline for manuscript submissions

31 May 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
