## Special Issue

## Advances into Solar Energy Technologies and Applications

## Message from the Guest Editors

The development of innovative technologies in the field of solar energy has significantly transformed the global energy landscape, driving sustainable solutions to mitigate climate change and ensure access to clean energy. This Special Issue of Applied Sciences aims to bring together original research articles and critical reviews that explore recent progress in materials, devices, systems, and methodologies for solar energy generation, storage, and management. We encourage the submission of works addressing innovations in photovoltaic cells, solar thermal collectors, hybrid applications, smart grid integration, and energy efficiency strategies. Interdisciplinary research combining engineering, materials science, computational modeling, energy policy, and technoeconomic feasibility studies will also be highly valued. This Special Issue seeks to foster academic and technological dialogue that connects cutting-edge research with practical applications, contributing to the acceleration of the transition toward a cleaner, more resilient, and sustainable energy system.

### **Guest Editors**

Dr. Marco Antonio Zamora Antuñano

Department of Educational Research, Engineering and Technological Development, University of the Valley of Mexico, Queretaro 25138, Mexico

Dr. Marco Francesconi

Department of Energy, Systems, Territory and Constructions Engineering (D.E.S.T.eC), University of Pisa, 56126 Pisa, Italy

### Deadline for manuscript submissions

20 April 2026

## **About the Journal**

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## **Editor-in-Chief**

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

## **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.
