

Special Issue

Innovations in Multimedia Processing and Security

Message from the Guest Editor

We are inviting submissions to this Special Issue on “Innovations in Multimedia Processing and Security”. With the rapid development in internet technologies, multimedia security is one of the central issues in smart healthcare, communication networks, and mobile communications. Innovative applications of image and video processing technologies in any field, including Intelligent multimedia data processing, computer vision for multimedia applications, medical applications, biometrics, and security, are attracting more and more interest from the research community. In this Special Issue, we invite submissions exploring cutting-edge research and recent advances in the fields of multimedia processing and security. Both theoretical and experimental studies are welcome, as well as comprehensive reviews and survey papers.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
