

Special Issue

Latest Research and Advances in Oral Medicine and Oral Pathology

Message from the Guest Editors

In recent years, research has focused on new diagnostic and therapeutic approaches in the management of oral diseases. Oral medicine is increasingly oriented towards prevention and early diagnosis, mainly due to the continuous development of minimally invasive and personalized diagnostic techniques. This Special Issue aims to collect relative research on the latest research and advances in oral medicine that can help improve clinical decision-making and impact the quality of life of our patients:

- Oral cancer and oral potentially malignant disorders: diagnosis and management
- Medication-related osteonecrosis of the jaws: diagnosis and management
- Diagnosis and management of oral diseases (benign, infectious, and autoimmune diseases)
- Management of Special Needs Patients and medically compromised patients
- Oral diseases in patients with systemic problems
- New technologies in oral medicine
- Projects of improve oral health awareness and knowledge

Keywords: Oral pathology; Oral medicine; Oral surgery; Oral cancer; Biopsy and liquid biopsy; Head and neck chemotherapy and/or radiotherapy; Oral potentially malignant disorders; Orofacial pain; Osteonecrosis of the jaws; Laser

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
