Editorial Board Members' Collection Series: Electromagnetics and Communication

Message from the Guest Editors

We are pleased to announce the forthcoming Special Issue, entitled “Editorial Board Members' Collection Series: Electromagnetics and Communication”, which will collect papers authored by highly qualified researchers invited by Editorial Board Members, who are experts in their fields. The aim is to provide a venue for networking and communication between *Applied Sciences* and scholars in the fields of computational electromagnetics, microwave and millimeter-wave remote sensing, wireless/underwater communications and networking, and related areas. All papers will be published in fully open access after peer review.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
