

Special Issue

Digital Transformation in Information Systems

Message from the Guest Editors

Digital transformation revolutionizes information systems. This Special Issue seeks to advance the understanding of digitalization's technologies, strategies, and impacts, featuring original research, case studies, and conceptual frameworks that explore digital transformation's opportunities and challenges. Contributions addressing AI, cloud computing, blockchain, digital strategy, and ethical considerations are highly encouraged.

Digital transformation in information systems (IS) continuously evolves, driven by technological advancements, strategic implementations, and societal impacts. This Special Issue highlights how digitalization reshapes organizations, industries, and public institutions, fostering new value-creation models, enhancing decision-making, and improving operational efficiency.

This Special Issue welcomes research contributions that analyze, design, implement, and evaluate digital transformation initiatives in various sectors, including business, government, healthcare, education, and tourism. We invite theoretical, empirical, and case-study-based submissions covering emerging technologies, frameworks, methodologies, and best practices in IS.

Guest Editors

Prof. Dr. Elisabete Paulo Morais

Prof. Dr. Agostinho de Sousa Pinto

Prof. Dr. Carlos Fernando de Almeida Grilo

Dr. Maria João da Silva Costa Ferreira

Dr. Juan C. Infante-Moro

Deadline for manuscript submissions

20 October 2025

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
