

Special Issue

Advances in Flow in Porous Media and Microfluidics

Message from the Guest Editor

This Special Issue will feature advanced topics related to fluid flow in porous media and microfluidics. Specifically, it will cover novel fluid systems for energy and environmental applications, as well as advanced experimental and modeling techniques that investigate fluid flow processes in porous media. Additionally, this issue will explore the use of microfluidics or nanofluidics for flow transport processes in porous media.

Guest Editor

Dr. Guoqing Jian

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
