Special Issue

Trends and Prospects in Animal Assisted Intervention (AAI)

Message from the Guest Editors

We invite you to contribute to this Special Issue of Applied Sciences titled "Trends and Prospects in Animal Assisted Intervention (AAI)". The One Welfare concept recognises the interconnections between animal welfare, human wellbeing and the environment. One of the five sections that made up this theoretical framework is animal-assisted intervention (AAI). However, the practical application of the One Welfare framework in AAI programs lacks guidelines and protocols at the moment. Therefore, its implementation in animal-assisted therapy, education, or activities involving domestic animals in different contexts needs to be investigated. This Special Issue is addressed to collect theoretical and practical research focused on the methodology and design of AAI and all practical tips to improve the application of the One Welfare framework in this field. Keywords:

- One Welfare
- animal-assited interventions (AAI)
- animal-assisted therapy
- animal-assisted education
- animal-assisted activities
- multidisciplinary team
- human wellbeing
- animal welfare
- AAI setting/AAI design/AAI methodology

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
