

Special Issue

Progress in Information Security and Privacy

Message from the Guest Editor

The rapid growth of data-driven technologies for large-scale data processing has raised significant concerns about data privacy and security. This Special Issue aims to explore various challenges related to big data and address issues regarding the advanced technologies. The scope of this Special Issue includes differential privacy, anonymization schemes for multi-dimensional data, study on various threat models, and human aspects regarding privacy policies for data-driven technologies. We look forward to your submissions.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
