

Special Issue

New Insights into Industrial Wastewater Treatment

Message from the Guest Editor

Industrial wastewater treatment remains a critical concern as industries continue to grow and environmental regulations become increasingly stringent. This Special Issue, "New Insights into Industrial Wastewater Treatment," aims to address the latest advancements, challenges, and innovative solutions in the treatment of industrial effluents. This edition will feature comprehensive research on emerging technologies, sustainable practices, and case studies that illustrate effective treatment methodologies. Contributions will explore topics such as the development of advanced treatment systems, the integration of green chemistry principles, and the application of novel materials for pollutant removal. By presenting cutting-edge research and practical applications, this Special Issue will provide valuable insights for researchers, practitioners, and policymakers dedicated to improving water quality and safeguarding environmental health.

- advanced treatment technologies
- sustainable industrial practices
- pollutant removal techniques
- green chemistry in wastewater treatment
- innovative materials for effluent management

Guest Editor

Dr. Murilo Pereira Moisés

Chemistry Coordination (COLIQ), Universidade Tecnológica Federal do Paraná (UTFPR), Campus Apucarana, 635 Marcílio Dias St., Apucarana 86812-60, Brazil

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
