

Special Issue

Latest Advances in Modern Energy Systems Planning and Operation

Message from the Guest Editors

This Special Issue aims to collect high-quality papers on energy and power systems. We encourage researchers and experts from various research fields to submit articles highlighting the latest developments in the following topics:

- Smart grids;
- The electricity market;
- Integrated energy systems;
- Integrated energy services;
- Energy storage technology;
- Power system planning and operation.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief
