

Special Issue

Veterinary Pathology and Food Safety

Message from the Guest Editors

Veterinary pathology serves as a critical link between animal health and food safety, providing essential information regarding the mechanisms implicated animal diseases that affect the safety and quality of our food. Novel diagnostic technologies and integrated surveillance systems are enhancing our ability to detect, monitor, and control animal diseases and food contaminants. However, significant challenges related to the application of these scientific advances in real-world settings remain. Accurate diagnosis and effective intervention must often cope with variable field conditions, emerging pathogens, complex disease manifestations, and rapidly changing production practices.

The scope of this Special Issue includes innovative approaches to diagnosis, disease surveillance, the risk assessment of pathogens and contaminants, One Health perspectives, rapid detection tools, epidemiological modeling, and practical case studies in animal production and food processing.

Guest Editors

Dr. Viorel Cezar Floristean

Department of Public Health, Faculty of Veterinary Medicine, "Ion Ionescu de la Brad" Iasi University of Life Sciences, 700489 Iasi, Romania

Prof. Dr. Gheorghe Solcan

Internal Medicine Unit, Clinics Department, Faculty of Veterinary Medicine, Iasi University of Life Sciences Ion Ionescu de la Brad, Iasi, Romania

Deadline for manuscript submissions

20 January 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
