

Special Issue

Current Research and Future Development for Sustainable Cities

Message from the Guest Editors

This Special Issue has the objective to collect a set of papers that show important efforts focused on meeting the set of targets included in 2030 Agenda to: adopt and implement policies and plans towards inclusion, resource efficiency, mitigation, adaptation and resilience to climate change in cities; reduce the adverse per capita environmental impact of cities.

Keywords

- adaptation
- circular city
- climate change
- cultural heritage
- inclusion
- mitigation
- smart city
- sustainable city
- policies and plans

Guest Editors

Dr. María Isabel Rodríguez Rojas

Department of Urban Planning, University of Granada, 18071 Granada, Spain

Prof. Dr. Montserrat Zamorano

Department of Civil Engineering, University of Granada, 18071 Granada, Spain

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
