

## Special Issue

# New Trends in Next-Generation Optical Networks

### Message from the Guest Editor

This Special Issue of Applied Sciences will provide new research on, and practical solutions to, CMOS-compatible photonic integrated devices used for communications in high-capacity optical networks. This Special Issue investigates how new photonic integrated technologies and new network-layer approaches may drive the medium-long-term evolution of optical networks for communication. This Special Issue covers a large scope of research in optical networking and communications, and solicits contributions in, but not limited to, Photonic higher-speed transceivers; Lasers and amplifiers; Coherent systems; Advanced digital signal processing; Compatible optical switching, devices, and architectures; The design and performance evaluation of optical network components; Energy-efficient optical networks and systems; Data center networks; Optical access networks and FTTx; Optical packet, burst, and flow switching; Failure monitoring and localization; Protection and restoration in optical networks; Elastic optical networks; Optical network security; Support to grid and cloud computing; Radio-over-fiber technology; The convergence of optical and wireless networks.

### Guest Editor

Prof. Dr. Gerardo Antonio Castañón-Avila  
School of Engineering and Science, Tecnológico de Monterrey, Ave.  
Eugenio Garza Sada 2501, Monterrey 64849, Mexico

### Deadline for manuscript submissions

20 August 2025

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
