

## Special Issue

# Histochemistry and Anatomy in Animal Pathology

### Message from the Guest Editors

The animal science is developing each year, presenting novel aspects of known pathologies. The anatomical, histological, and histochemical studies play a crucial role in describing the changes occurring in both spontaneous diseases and disorders developed during animal model studies. Therefore, we are pleased to invite you to contribute to the Special Issue focusing on the advances in histochemistry and anatomy in animal pathology.

In this Special Issue, original research articles and reviews are welcome. Case reports and case series will be considered when presenting novel disorders that are significant for the veterinary medicine community and include the clinical history of the case(s).

Research areas may include (but are not limited to) the following:

Pathological anatomy and histochemistry of neoplastic diseases of companion animals, cattle and horses;

Pathological anatomy and histochemistry of cardiovascular disease of companion animals, cattle and horses;

Pathological anatomy and histochemistry in lab animals used for model studies.

---

### Guest Editors

Dr. Izabela Janus-Ziółkowska

Department of Pathology, Wrocław University of Environmental and Life Sciences, CK Norwida Str. 31, 50-375 Wrocław, Poland

Dr. Rafał Ciaputa

Department of Pathology, Wrocław University of Environmental and Life Sciences, CK Norwida Str. 31, 50-375 Wrocław, Poland

---

### Deadline for manuscript submissions

20 January 2026

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
