Special Issue

Antioxidant Properties and Chemical Compositions of Plant Extract

Message from the Guest Editors

This Special Issue titled "Antioxidant Properties and Chemical Compositions of Plant Extract" will focus on research aimed at identifying bioactive chemical compounds, particularly antioxidants, present in plant extracts. Special attention will be given to antioxidants, which play a crucial role in neutralizing free radicals. Chemical analysis of plant materials enables the detection and characterization of compounds such as flavonoids, phenols, and alkaloids, which exhibit strong antioxidant activity and may find applications in medicine, pharmacology, cosmetology, and the food industry. The goal of this issue is to promote innovative research and facilitate knowledge exchange among scientists working in the fields of plant chemistry, biotechnology, and pharmacy. The topic of this issue aligns perfectly with global trends in the search for natural, safe, and sustainable sources of bioactive substances, supporting the development of eco-friendly and health-promoting solutions based on the rich potential of the plant world.

Guest Editors

Dr. Anna Przybylska-Balcerek

Department of Chemistry, Poznań University of Life Sciences, Wojska Polskiego 75, 60-625 Poznan, Poland

Dr. Lidia Szwajkowska-Michałek

Department of Chemistry, Faculty of Forestry and Wood Technology, Poznan University of Life Sciences, ul. Wojska Polskiego 75, 60-625 Poznan, Poland

Deadline for manuscript submissions

20 June 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
