

Special Issue

Feature Review Papers in "Acoustics and Vibrations" Section

Message from the Guest Editors

We are pleased to announce the first edition of the Special Issue on "Feature Review Papers in Section Acoustics and Vibrations". The Special Issue aims to collect review papers of particular interest in the topics related to the section Acoustics and Vibrations. We are glad to encourage the submission of high-quality review papers on Acoustics and Vibrations that deal with theoretical methods and/or experimental and numerical applications. An interdisciplinary approach is also encouraged.

- acoustics
- vibration
- environmental acoustics
- room acoustics
- aeroacoustics
- vibration and sound measurement
- vibration and sound signal processing
- noise control
- predictive models

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
