Intelligent Techniques in E-Learning

Message from the Guest Editors

Intelligent techniques in e-learning are revolutionizing how education is delivered and experienced. These techniques leverage artificial intelligence (AI), machine learning (ML), and data analytics to create personalized, adaptive, and efficient learning environments. By harnessing the power of intelligent algorithms, e-learning platforms can analyze learners' behaviors, preferences, and performance to tailor content and assessments according to individual needs.

Intelligent assessment techniques, such as automated grading systems and predictive analytics, further enhance e-learning by streamlining the evaluation process. Predictive models can identify at-risk students early and suggest interventions to improve performance, ensuring a higher success rate.

In summary, intelligent techniques in e-learning are transforming education by offering personalized, efficient, and scalable solutions that cater to individual learning styles, making education more accessible and effective for all learners.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
