

Special Issue

New Insights into Mineralization and Mining

Message from the Guest Editors

We are pleased to invite you to contribute to the Special Issue "New Insights into Mineralization and Mining", which aims to delve into the latest research findings on mineralization and its implications for mining practices, fostering scientific understanding and technological innovation in this field. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Innovations and developments in mining technology;
- New technologies and methods in mineral exploration;
- Recent advancements in mineral identification.

We look forward to your active participation and contributions.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
