International Conference Wood Science and Engineering in the Third Millennium–ICWSE 2025

Message from the Guest Editors

The International Conference Wood Science and Engineering in the Third Millennium (ICWSE), hosted by the Transilvania University of Brasov (Romania), the Faculty of Furniture Design and Wood Engineering, has reached its 14th edition. The main scope of this conference is to provide a forum for discussing the most recent advances in wood science and technology. The upcoming conference (ICWSE 2025) will occur between 6 and 8 November 2025. At this event, participants from all over the world are expected to present their newest research achievements. Papers published in this ICWSE 2025 Special Issue will cover a wide range of topics related to wood science and technology, which are listed as keywords below.

- wood structure and properties
- wood drying and heat treatments
- mechanical wood processing and quality
- wood-based materials
- wood preservation, modification, gluing, and coating
- conservation-restoration of wooden objects
- furniture design
- wood constructions

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
