State-of-the-Art of Dental Materials

Message from the Guest Editors

It is a privilege to invite you to submit your paper and present your research in the upcoming Special Issue “State of the Art of Dental Materials”, which will be considered for publication in *Applied Sciences*. Dental materials have undergone a revolution in recent decades, improving the quality of dental therapies and allowing the resolution of previously unsolvable clinical problems. This Special Issue is concerned with all aspects of dental specialties dealing with this topic.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
