

Special Issue

AI in Education

Message from the Guest Editor

This Special Issue, entitled "AI in Education", aims to reflect recent research in the field of AI and education. We expect submissions focused on both the theoretical aspects and applications of AI and its subfields in education. New ideas proposing novel approaches are also welcome. Topics of interest include, but are not limited to, the following areas:

- Studies concerning ethical issues about applying AI in education;
- Human-computer interactions in aspects of AI in education;
- New teaching/learning paradigms through the inclusion of AI in education;
- Multimodal applications of AI in education;
- New applications of AI, ML, DL, etc., in teaching/learning;
- AI-based assessment of learning.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
