

Special Issue

Science and Basketball: Recent Advances and Practical Applications

Message from the Guest Editors

This Special Issue will focus on cutting-edge research and practical applications in the field of basketball science. It will feature selected papers from our upcoming scientific congress on basketball, scheduled for November 7–9, 2024. The issue aims to showcase recent advancements in various scientific disciplines related to basketball, bridging the gap between theoretical research and practical implementations. Topics may include, but are not limited to, performance analysis, sports technology, biomechanics, physiology in basketball. Keywords

- basketball
- performance analysis
- sports technology
- biomechanics
- physiology

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
