

## Special Issue

# Acoustics and Vibrations Analyses of Materials at Different Scales: Experimental and Numerical Approaches: Volume II

### Message from the Guest Editor

This Special Issue aims at providing a broad coverage of recent theoretical, numerical, and experimental approaches to various problems related to acoustics and vibrations. Vibrations can occur spontaneously or be the result of anomalies in materials and structures at different scales. Thus, several methodologies that rely on the evaluation of acoustic behavior and vibrational characteristics of the system can provide excellent insight into its dynamical properties as well as about its progress toward certain damage conditions. Therefore, this Special Issue welcomes research studies that evaluate the vibrational response and assess the state of materials and structures at different scales. Both experimental investigations and theoretical and computational studies are appreciated.

---

### Guest Editor

Dr. Giuseppe Lacidogna

Department of Structural, Geotechnical and Building Engineering,  
Politecnico di Torino, Corso Duca degli Abruzzi 24, 10129 Turin, Italy

---

### Deadline for manuscript submissions

closed (30 June 2023)

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
