

Special Issue

Advances in Structural Health Monitoring of Civil Engineering Structures

Message from the Guest Editors

This Special Issue is dedicated to highlight the current state-of-the-art advances and the latest applications of the SHM technology. We welcome high quality articles addressing, among others, the following topics:

- state-of-the-art review of SHM techniques for civil engineering structures;
- advances on the sensing technology to be used for SHM;
- advances on vibration-based SHM;
- novel methods to assess the structural condition and detect structural damages;
- recent developments and advances for integrated SHM and decision-support to facilitate structural integrity management purposes;
- case studies of advanced SHM employment for civil engineering structures.

Guest Editors

Dr. Evangelos I. Katsanos

Dr. Sandro D. R. Amador

Dr. Isaac Farreras Alcover

Dr. Henrik Gjelstrup

Prof. Dr. Rune Brincker

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
