

Special Issue

Anthropometry and Body Composition for Health, Disease and Sport: Application and Technologies

Message from the Guest Editors

This Special Issue seeks to provide educational innovation and technologies in body composition to stabilize the accordance between different methods of determination and establish reference values related to health in different types of population, such as the effect of different intervention of lifestyle, dietetic–nutritional, and/or physical activity intervention in body composition. Additionally, this Special Issue seeks to establish possible anthropometric measurements that could be associated with sport performance and/or detection of sport talent, such as the effect of different intervention focused on provoke changes in body composition. Keywords

- Anthropometry
- Body Composition
- Technologies
- Applications
- Software
- Biomechanics
- Sport Performance
- Disease
- Health

Guest Editors

Dr. José Miguel Martínez-Sanz

Prof. Dr. Antonio Jesús Sanchez-Oliver

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
